

This technical site plan illustrates a sewerage network layout. The plan includes several buildings, some labeled with numbers like 109 and 4918/67:13. A network of pipes is shown in various colors: red for main lines, blue for smaller branches, and green for specific sections. Manholes are marked with green circles and labeled K1 through K12. Other features include a 'trink' (drinking water) line, a '5MG' (5m³) storage tank, and various pipe diameters such as $\phi 100$, $\phi 150$, $\phi 200$, and $\phi 300$. The plan also shows a 'MN' (manhole) and a '500zs' (500mm diameter sewer) line. The layout is complex, with many connections and branches, and includes a large area of green space with trees.
